ATTENTION!!

WHEN YOU SEE A “WARNING!” BE SURE TO HEED THE MESSAGE! THE INFORMATION CONTAINED IN THESE MESSAGES CAN SAVE YOUR LIFE!!

WARNING! FALLS FROM A TREESTAND CAN OCCUR ANYTIME AFTER LEAVING THE GROUND. THESE FALLS RESULT IN EITHER SERIOUS INJURY OR DEATH! FOR YOUR PERSONAL SAFETY, PLEASE TAKE A MOMENT TO CAREFULLY READ THIS PRODUCT INSTRUCTION MANUAL IN ITS ENTIRETY BEFORE ATTEMPTING TO ASSEMBLE, SET-UP, INSTALL AND/OR OTHERWISE USE THIS BIG DOG TREESTANDS PRODUCT. AT LEAST ANNUALLY, REVIEW THE CONTENTS OF THIS INSTRUCTION MANUAL AND WATCH THE SAFE TREESTAND HUNTING DVD. ADDITIONALLY, KEEP THESE INSTRUCTIONS FOR THE ENTIRE DURATION YOU OWN THIS PRODUCT(S). FAILURE TO FOLLOW THESE INSTRUCTIONS MAY RESULT IN SERIOUS INJURY OR DEATH!

WARNING! THE SAFE USE AND OPERATION OF THIS PRODUCT(S) IS THE SOLE RESPONSIBILITY OF THE USER. A SAFE TREESTAND HUNTING VIDEO HAS BEEN PROVIDED WITH THIS PRODUCT. YOU MUST WATCH THIS DVD IN ITS ENTIRETY. IT IS ALSO THE SOLE RESPONSIBILITY OF THE OWNER TO PROVIDE ANY PERSON(S) WHO BORROW OR PURCHASE THIS PRODUCT WITH THESE INSTRUCTIONS AND THE SAFE TREESTAND HUNTING VIDEO. FAILURE TO FOLLOW THESE INSTRUCTIONS MAY RESULT IN SERIOUS LIABILITY PENALTIES AS DETERMINED BY THE U.S. JUDICIAL SYSTEM.

WARNING! Failure to read and strictly comply with the instructions contained in this Instruction Manual may result in serious injury or death! PLEASE NOTE THAT “WARNING!” statements have been placed throughout this Instruction Manual. These statements point-out important safety information and instructions, which, if not followed, could endanger the personal safety and/or property of the operator. It is imperative that the operator of this product, or any other Big Dog Treestands product(s) read and understand all the instructions and warnings contained in this Instruction Manual prior to attempting to use this product(s), or any other Big Dog Treestands product(s). Failure to comply with these instructions and/or warnings may result in serious injury or death! When you see a “WARNING!” statement- BE SURE TO HEED THE MESSAGE!

WARNING! Thoroughly inspect this or any other Big Dog Treestands product(s) prior to each use for signs of wear, rot, corrosion, cracks, deterioration and/or any other type of defect. DO NOT expose this product to extended exposure to direct sunlight, excessive heat or freezing temperatures. Do not use this or any other Big Dog Treestands product(s) if they show evidence of wear, rot, corrosion, cracks, deterioration and/or any other type of defect. Failure to follow these instructions may result in serious injury or death!

WARNING! Do not remove, modify and/or omit any portion or otherwise mechanically modify this Big Dog Treestands product(s) or its assemblies in any manner. Modification, additions, misuse and/or part substitution shall immediately void your factory warranty and may result in serious injury or death! If you suspect a part(s) is missing and/or defective, immediately contact Big Dog Treestands toll free at (866) 387-2002 for replacement of missing or defective parts. Never modify your stand in any way by making repairs, or altering, adding or attaching anything to it except if explicitly authorized in writing by Big Dog Treestands. ALWAYS USE GENUINE FACTORY AUTHORIZED BIG DOG TREESTANDS REPLACEMENT PARTS. USE OF ANY REPLACEMENT PARTS OTHER THAN GENUINE BIG DOG TREESTANDS PARTS voids your warranty and relieves Big Dog Treestands of any resultant liabilities and may result in serious injury or death!

WARNING! This Big Dog Treestands product(s) is designed for adult use only. No one under the age of 16 should attempt to use this or any other Big Dog Treestands product(s) without direct adult supervision. Replace all hardware/cables/ nuts/bolts/clips on your tree stand every two (2) years or sooner if inspection finds it necessary. Use only Big Dog replacement straps and parts. Use of any other straps or parts, which are not genuine Big Dog Treestands straps and parts, will be viewed as a modification to the product. Any modification will void the warranties and relieves Big Dog Treestands Inc. from all liabilities. Failure to follow these instructions may result in serious injury or death!

WARNING! Prior to attempting to use this or any other Big Dog Treestands product(s), you must take a moment and become familiar with its assembly, setup and installation. You must practice installing, setting-up and using this product(s) at ground level prior to attempting to use it at heights above ground-level. Once you have become thoroughly knowledgeable and comfortable with this Big Dog Treestands product(s) set-up, installation and use at ground-level, you are now ready to use it at heights about ground-level. Failure to follow these instructions may result in serious injury and death!

WARNING! ALWAYS inspect/check ALL expiration dates/tags on all straps and the full-body fall arrest harness prior to each use. You must replace ALL straps (ratchet, cinch, button, stabilizing straps/ropes, etc.) and suspension seats EVERY year. Never use any strap(s) or full-body fall arrest harness that has expired or is showing any damage or wear. Replace all hardware/cables/nuts/bolts/clips on your tree stand every (2) years or sooner if inspection finds it necessary. Use only Big Dog replacement straps and parts. Any other straps or parts will be viewed as a modification to the product. Any modification will void the warranties and relieves Big Dog Treestands Inc. from all liabilities. Failure to follow these instructions may result in serious injury and death!

WARNING! When hunting from a treestand, falls can occur any time after leaving the ground causing injury or death. Always wear your Big Dog Treestands full-body fall arrest system comprising a full-body fall arrest harness at all times after leaving the ground. You must stay connected at all times after leaving the ground. Single safety belts and chest harnesses are no longer allowed and should never be used as they put the user at serious risk of injury or death. If you are not wearing your full-body fall arrest harness properly attached to the tree that is protecting you from a fall, do not leave the ground. Failure to follow these instructions may result in serious injury or death!

WARNING! Never rely on a tree branch for support while climbing. Failure to follow these instructions may result in serious injury or death!

WARNING! You must always inform someone of your hunting location, where the treestand will be located and the expected duration of the hunt. Failure to follow these instructions may result in serious injury or death!

WARNING! Inspect all safety devices each time before each use. DO NOT use these devices if it (they) shows signs of wear, damage, deterioration, or vandalism. Factors such as tree growth, vandals, weather and animals may affect the performance of an unattended tree stand. Do not store these devices outdoors when not in use. Failure to follow these instructions may result in serious injury or death!

WARNING! Failure to read and strictly comply with the instructions contained in this Instruction Manual may result in serious injury or death! PLEASE NOTE THAT “WARNING!” statements have been placed throughout this Instruction Manual. These statements point-out important safety information and instructions, which, if not followed, could endanger the personal safety and/or property of the operator. It is imperative that the operator of this product, or any other Big Dog Treestands product(s) read and understand all the instructions and warnings contained in this Instruction Manual prior to attempting to use this product(s), or any other Big Dog Treestands product(s). Failure to comply with these instructions and/or warnings may result in serious injury or death! When you see a “WARNING!” statement- BE SURE TO HEED THE MESSAGE!

WARNING! Do not remove, modify and/or omit any portion or otherwise mechanically modify this Big Dog Treestands product(s) or its assemblies in any manner. Modification, additions, misuse and/or part substitution shall immediately void your factory warranty and may result in serious injury or death! If you suspect a part(s) is missing and/or defective, immediately contact Big Dog Treestands toll free at (866) 387-2002 for replacement of missing or defective parts. Never modify your stand in any way by making repairs, or altering, adding or attaching anything to it except if explicitly authorized in writing by Big Dog Treestands. ALWAYS USE GENUINE FACTORY AUTHORIZED BIG DOG TREESTANDS REPLACEMENT PARTS. USE OF ANY REPLACEMENT PARTS OTHER THAN GENUINE BIG DOG TREESTANDS PARTS voids your warranty and relieves Big Dog Treestands of any resultant liabilities and may result in serious injury or death!

Any other straps or parts will be viewed as a modification to the product. Any modification will void the warranties and relieves Big Dog Treestands Inc. from all liabilities. Failure to follow these instructions may result in serious injury and death!

WARNING! When hunting from a treestand, falls can occur any time after leaving the ground causing injury or death. Always wear your Big Dog Treestands full-body fall arrest system comprising a full-body fall arrest harness at all times after leaving the ground. You must stay connected at all times after leaving the ground. Single safety belts and chest harnesses are no longer allowed and should never be used as they put the user at serious risk of injury or death. If you are not wearing your full-body fall arrest harness properly attached to the tree that is protecting you from a fall, do not leave the ground. Failure to follow these instructions may result in serious injury or death!

WARNING! Never rely on a tree branch for support while climbing. Failure to follow these instructions may result in serious injury or death!

WARNING! You must always inform someone of your hunting location, where the treestand will be located and the expected duration of the hunt. Failure to follow these instructions may result in serious injury or death!

WARNING! Inspect all safety devices each time before each use. DO NOT use these devices if it (they) shows signs of wear, damage, deterioration, or vandalism. Factors such as tree growth, vandals, weather and animals may affect the performance of an unattended tree stand. Do not store these devices outdoors when not in use. Failure to follow these instructions may result in serious injury or death!
WARNING! Practice the use your full-body fall arrest harness at ground level in the presence of a responsible adult to experience the feel-
ing of hanging suspended before using it in a hunting environment. Failure to follow these instructions may result in serious injury or death!

WARNING! The length of the full-body fall arrest lanyard must be minimized at all times. It should be adjusted so it is above the head with no slack (snug) in the sitting position and you should have the minimum amount of slack possible when climbing. Failure to follow these instructions may result in serious injury or death!

WARNING! Failure to follow harness instructions could result in not being able to return to the stand and being suspended in a harness after a fall. If your hunting location is unknown by anyone and communication efforts are unsuccessful, you must have a personal plan for self-recovery/escape should you experience a fall. Prolonged suspension in a harness can be fatal. It is important to exercise the legs by pushing against the tree or doing other forms of continuous leg exercises to avoid blood pooling while being suspended. Varying degrees of physical fitness may require different plans for self-recovery/escape to minimize the effects of prolonged suspension. Have a personal plan and practice it in the presence of a responsible adult before leaving the ground. No one escape/rescue plan will work for every hunter, on every tree, in every circumstance. Only you can determine the best self-recovery/escape plan for your hunting situation and you must have a self-recovery/escape plan for your individual situation before leaving the ground. There is time to make a correct decision on what action to take if a fall occurs while wearing a full-body fall arrest harness. It is important to remember, “DO NOT PANIC.” You must only hunt from the ground when self-recovery/escape ability is absent. Failure to follow these instructions may result in serious injury or death!

WARNING! A suspension relief device must be on your person and readily accessible while using a harness. These devices allow the user to relieve the load on the lower extremities if suspended in a harness and help maintain circulation in the legs, mitigate suspension trauma (blood pooling) or allow descent to the ground. Be sure to follow the manufacturers’ directions on the safe use of any suspension relief device. Several optional products/systems are available that offer self-recovery or self-extraction from a fall when suspended in a harness. Some systems automatically descend the user while others allow user control. One of these products/systems can be considered for use as an additional safety precaution against prolonged suspension and suspension trauma. Be sure to follow the manufacturers’ directions on the safe use of these products/systems. Failure to follow these instructions may result in serious injury or death!

WARNING! If you have a limiting physical and/or health condition that precludes and/or renders you incapable of self-recovery and/or a suitable escape plan is not available, DO NOT hunt from heights above ground level. Failure to follow these instructions may result in serious injury or death!

WARNING! NEVER allow the harness lanyard to get under your chin or around your neck. This poses a choking hazard that can lead to serious injury or death. Failure to follow these instructions may result in serious injury or death!

WARNING! Never attempt to climb up or down with a weapon and/or gear in your possession. ALWAYS unload your weapon and pull it up to hunting height using a tether or pull up rope. ALWAYS lower your unloaded weapon down to the ground prior (when raising or lowering firearms, the chamber must be open and the barrel pointing toward the ground) to attempting to climb down. Use this same method when raising or lowering all other gear. Failure to follow these instructions may result in serious injury or death!

WARNING! DO NOT attempt to use this and/or any other Big Dog Treestands product(s) when ice, snow and/or freezing rain has deposited or formed on any portion of the tree you intend to climb. Failure to follow these instructions may result in serious injury or death!

WARNING! ALWAYS maintain three-point contact when climbing up/down a tree when using climbing aids (e.g., ladders, climbing sticks, stacking steps, etc.). Proper three-point contact means having either two (2) feet with one (1) hand or one (1) foot with two (2) hands on the step portion of the climbing aids at all times when climbing up or down. Failure to follow these instructions may result in serious injury or death!

WARNING! NEVER adjust ANY straps, cables, and/or adjustable support bars while standing on or leaning against any treestand. DO NOT use any treestand if there is any damage, wear, or excessive corrosion on any part of the treestand or the full-body fall arrest harness. Failure to follow these instructions may result in serious injury or death!

WARNING! DO NOT modify, fix/repair, alter, bend, cut, weld, or heat this product in any way. Failure to follow these instructions will void warranty and may result in serious injury or death!

WARNING! DO NOT lean out from a treestand for any reason. Never use your full-body fall arrest harness to help you lean out of your treestand to make a difficult shot. Failure to follow these instructions may result in serious injury or death!

WARNING! DO NOT use this or any other Big Dog Treestands product(s) if you have a history of heart problems, back problems, impaired vision, joints that lock-up, spinal fusions, equilibrium problems, high blood pressure, are not well-rested and/or any other physical impairment that may limit your ability to use and/or operate this product(s) in the safe manner outlined in this Instruction Manual. Additionally, do not use this or any other Big Dog Treestands product(s) if you are currently taking any medication (including prescription) and/or using and/or consuming any substance, including alcohol, that may limit your ability to use this Big Dog Treestands product(s) as outlined and described in the Instruction Manual. Never use a treestand when feeling ill, nauseous or dizzy. Do not use ANY Big Dog Treestands product(s) without consent from your medical doctor for safe and proper use of the treestand and fall arrest system. Failure to follow these instructions may result in serious injury or death!

WARNING! DO NOT attempt to use this or any other Big Dog Treestands product(s) when thunderstorms are threatening and/or present within five (5) miles. Do not attempt to use this or any other Big Dog Treestands product(s) when any other adverse weather condition presents itself. These include weather conditions which have the potential for producing winds, lightning, rain, snow, sleet and/or any other atmospheric condition which may limit the user’s ability to operate this Big Dog Treestands product(s) in a safe manner as described in this Instruction Manual. Should inclement weather conditions arise during your use of this Big Dog Treestands product(s), return to the ground immediately. Failure to follow these instructions may result in serious injury and death!

WARNING! DO NOT use this product, or attempt to use a treestand, on a dead, leaning, diseased, loose barked tree (bark that flakes or falls off), irregular shaped trees, or utility poles. DO NOT use this product on any tree that does not allow for a level standing platform. Failure to follow these instructions may result in serious injury or death!

WARNING! Never jump or bounce on a treestand to seat it to the tree. Failure to follow these instructions may result in serious injury or death!
Please read this manual in its entirety prior to using this product!

Special Considerations for Ladder Treestand Usage

**WARNING!** You must use at least three (3) adults to install and/or take down this ladder treestand. Failure to follow these instructions may result in serious injury or death!

**WARNING!** You must install and attach the criss-cross straps (i.e., 16’ stabilizing ropes) and other stabilization devices as described in this Instruction Manual prior to attempting to climb this treestand. Failure to follow these instructions may result in serious injury or death!

**WARNING!** When installing this ladder treestand you must bounce on the first rung to set the ladder into the ground prior to attempting to climb any higher. Failure to follow these instructions may result in serious injury or death!

**WARNING!** You must check every ladder section connection every time you use the stand before you leave the ground. If you find that the ladder sections are separating, DO NOT USE the treestand. Failure to follow these instructions may result in serious injury or death!

**WARNING!** You must check the ground under the treestand to make sure it is firm and level. Sloping ground or uneven surfaces (e.g., one foot on a rock) can cause your ladder to tilt or shift off the tree as you climb. Failure to follow these instructions may result in serious injury or death!

**WARNING!** You must check the ground under the treestand to make sure it is firm and level. Sloping ground or uneven surfaces (e.g., one foot on a rock) can cause your ladder to tilt or shift off the tree as you climb. Failure to follow these instructions may result in serious injury or death!

**WARNING!** You must maintain three (3) points-of-contact when climbing a ladder treestand (i.e., two feet-one hand, two hands-one foot). Failure to follow these instructions may result in serious injury or death!

**WARNING!** You must always lean forward as you climb and attach your full-body fall arrest harness to the tree before securing the platform to the tree and stepping onto the standing platform. Failure to follow these instructions may result in serious injury or death!

Big Dog Treestands Full-Body Fall Arrest Harness

We are very serious about your personal safety. A Big Dog Treestands full-body fall arrest harness has been included with this product for your use. The Big Dog Treestands full-body fall arrest harness has been designed to keep you from experiencing a fall. Remember, the most important part of your hunt is returning home to your family safe and sound.

**READ THE BIG DOG TREESTANDS FULL-BODY FALL ARREST HARNESS MANUAL CAREFULLY AND FOLLOW ALL THE INSTRUCTIONS!**

**YOUR NEW FULL-BODY FALL ARREST HARNESS IS DESIGNED FOR A MAXIMUM CAPACITY OF 300 POUNDS (136kgs). ADDITIONALLY, YOUR NEW FULL-BODY FALL ARREST HARNESS MUST BE REPLACED AFTER TWO (2) YEARS OF SERVICE! REPLACE YOUR HARNESS IMMEDIATELY SHOULD YOU EXPERIENCE A FALL WHILE WEARING IT.**

**WARNING!** You must use only the Big Dog Treestands full-body fall arrest harness that meets TMA standards and is provided with this product. NOTE: You must store your full-body fall arrest harness out of direct sunlight and out of any other harsh environmental condition(s) that may adversely affect its performance. Failure to follow these instructions may result in serious injury or death!

**WARNING!** You must check every ladder section connection every time you use the stand before you leave the ground. If you find that the ladder sections are separating, DO NOT USE the treestand. Failure to follow these instructions may result in serious injury or death!

**FIGURE 1: BIG DOG TREESTANDS BIG BUD-17 COMPONENTS**
BIG DOG TREESTANDS BIG BUD-17 ASSEMBLY

**Note:** Do NOT tighten any nuts/bolts until product is fully assembled. You will need two (2) 13mm wrenches and two (2) 10mm wrenches to tighten the assembly (not provided).

**STEP 1:** Locate the left/right foot platform support tube (J&K) and seat supports (H) refer to Figure 1. Bolt them together as shown in Figure 2 using four (4) 8mm x 1-3/8” bolt and locknuts. Locate the v-bars (M) (refer to to Figure 1). Install (1) v-bar to the bottom side of seat supports (H) and (1) v-bar to the bottom side of the foot platform support tubes (J&K) as shown in Figure 3 using four (4) 8mm x 2-1/8” bolts and locknuts. Note: Teeth plate on the v-bar should be facing toward the ground.

**STEP 2:** Locate the seat platform (G) and foot platform (I) (refer to Figure 1). Secure the seat platform (G) to the top of seat supports (H) as shown in Figure 4 using four (4) 8mm x 2-1/8” bolts and locknuts. Install the foot platform (I) onto the foot platform support tubes (J&K) as shown in Figure 4 using four (4) 8mm x 2-1/8” bolts and locknuts.

**STEP 3:** Locate the back frame (C) and rail supports (E) (refer to Figure 1). Bolt the rail supports to the foot platform (I) as shown in Figure 5 using two (2) 6mm x 1-3/4” bolts and locknuts. Insert the back frame (C) into the rail supports (E) as shown in Figure 5 using two (2) 6mm x 1” bolts and locknuts. Locate the back frame supports (D) (refer to Figure 1). Install them as shown in Figure 6, bolt them to the back frame (C) and the seat platform using four (4) 6mm x 1-3/4” bolts and locknuts.

**STEP 4:** Locate the rail stops (B) and shooting rail (A) (refer to Figure 1). Install the rail stops (B) to the rail supports (E) as shown in Figure 7 using two (2) 6mm x 1-1/8” bolts and locknuts. Install the shooting rail as shown in Figure 7 using two (2) 6mm x 1-3/4” bolts and locknuts with (1) nylon washer between shooting rail and rail supports on both sides.

**STEP 5:** Locate the top ladder section (N) (refer to Figure 1). Insert it into the left/right foot platform support tubes (J&K) as shown in Figure 8 and bolt them together using two (2) 6mm x 1-3/8” bolts and locknuts with (1) 6mm metal washer under each bolt head and locknut (4 total) to prevent bolt from pulling through on both sides. Next, Locate the cross tubes (L), install them to the outside of the top ladder section (N) and inside of the left/right platform support tubes (J&K) as shown in Figure 9 using four (4) 8mm x 2-1/8” bolts and locknuts. Next, swing the opposite end of the cross tubes to the outside of the ladder section and platform support tubes connection using two (2) 6mm x 2-1/8” bolts and locknuts. Go back and tighten ALL hardware using the previously mentioned two (2) 13mm wrenches and two (2) 10mm wrenches (not included).

**STEP 6:** Assemble ALL remaining ladder sections together with one (1) safety sleeve (V) on each side of ladder sections and pin together using (1) quick pin (O) and (1) safety sleeve (V). There are four (4) safety sleeve (V) and quick pin (O) connections total as shown in Figure 10. Make certain that all quick pins (O) are closed and latched following installation as shown in Figure 10. Attach pads and seat cushion.
Please read this manual in its entirety prior to using this product!

**WARNING!** You must wear and use the Big Dog Treestands full-body fall arrest harness and lineman’s belt at all times when setting up (installing), using and/or removing this Big Dog Treestands product(s). Failure to follow these instructions may result in serious injury or death!

**WARNING!** You must follow these installation instructions very carefully. Failure to follow these instructions may result in serious injury or death!

**WARNING!** You must check the ground under the treestand to make sure it is firm and level. Sloping ground or uneven surfaces (e.g., one foot on a rock) can cause your ladder to tilt or shift off the tree as you climb. Failure to follow these instructions may result in serious injury or death!

**WARNING!** Never attempt to climb any ladder stand without insuring the Adjustable Ladder Support Bar Assembly and the Criss-Cross ropes are present and are properly secured to the tree. Failure to follow these instructions may cause serious injury or death!

**WARNING!** Prior to attempting to use this, or any other Big Dog Treestands product(s), you must take a moment and become familiar with its setup and installation at ground-level. You must practice installing, setting-up and using this product(s) at ground-level prior to attempting to use it at heights above ground-level. Once you have become thoroughly knowledgeable and comfortable with this Big Dog Treestands product(s) setup, installation and use at ground-level, you’re now ready to use it at heights above ground-level. Failure to follow these instructions may result in serious injury or death!

**WARNING!** STOP NOW!!!!! Make sure that you are wearing your Big Dog Treestands full-body fall arrest harness. Failure to follow these instructions may result in serious injury or death!

**WARNING!** Your Big Dog ladder was designed, engineered and constructed in a manner that makes it a rugged piece of hunting equipment that will give you years of trouble-free service. This rugged-construction makes your Big Dog Ladder physically heavy. As such, you should never attempt to install this ladder by yourself. **YOU MUST HAVE A MINIMUM OF THREE (3) ADULTS FOR THE SAFE ERECTION OF YOUR TREETAND.**

**WARNING!** You must have at least three (3) adults to install and/or remove this ladder treestand. Failure to follow these instructions may result in serious injury or death!

**WARNING!** Prior to climbing, make sure that all the ladder sections are firmly connected and the ladder assembly is solidly secured to the tree. Failure to follow these instructions will result in serious injury or death!

**WARNING!** Prior to attempting to climb a ladder stand for the first time, make certain the feet of the bottom rung ladder section are firmly planted on solid, level ground. If they are not firmly planted on level ground, DO NOT climb the ladder. With the help of three (3) adults, lower the stand and find a suitable location to safely install the ladder stand. Failure to follow these instructions may result in serious injury or death!

**WARNING!** When climbing to secure the ratchet strap, it is important to lean forward when climbing to keep the stand centered and secure to the tree trunk. DO NOT lean backwards when climbing! Failure to follow these instructions will result in serious injury or death!

**WARNING!** When climbing, always maintain three (3) points-of-contact as you ascend (i.e., climb up) and while descending (i.e., climb down). Failure to maintain three (3) points-of-contact puts the user at serious risk of bodily injury. Failure to follow these instructions will result in serious injury or death!

**WARNING!** As you approach the top of the ladder, attach your full-body fall arrest harness tether to the tree trunk as soon as possible. After your tether has been attached to the tree, attach the looped ratchet strap to secure the top of the stand to the tree. Do not sit or stand on the standing platform until the looped ratchet strap has been securely fastened. Failure to follow these instructions will result in serious injury or death!

**WARNING!** DO NOT use this, or any other Big Dog product(s) to climb utility poles, telephone poles, structural columns or any other man-made structures. Never use this or any other Big Dog product(s) around power generation (e.g., transformers, generators, substations, etc.) and/or power transmission equipment. Failure to follow these instructions will result in serious injury or death!
PLEASE READ THIS MANUAL IN ITS ENTIRETY PRIOR TO USING THIS PRODUCT!

STEP 1: Select a straight, healthy tree with a minimum diameter of 12-inches (31cm) at the v-bars (M) installation height.

STEP 2: Insure all ladder sections are assembled properly with safety sleeve(s) (V) and quick pins (O), installed and closed as shown in Figure 10. Note: (4) safety sleeves (V) total. Check ALL bolts and locknuts on the entire stand to insure all are securely tightened. Review ALL products instructions/warnings for proper assembly and final inspection of all parts to insure all items are free from damage or wear. Do not use if there are any damaged or missing parts.

STEP 3: Lay the assembled ladder stand face down on the ground with the feet of the lower ladder section 3 or 4 feet (91cm and 122cm) away from the base of the tree. Locate the adjustable support bar assembly (T) (refer to Figure 1). Install the adjustable support bar assembly (T) to the fifth ladder rung from ground level (as shown in Figure 11). Bolt the bar to the welded tabs using one (1) 8mm x 1-5/8” bolt and one (1) wingnut (as shown in Figure 11). Tighten securely. Make certain the v-bar portion of the adjustable support bar assembly (P) is extended away from the ladder sections. Note: The adjustable support bar assembly (P) adjusts for length by loosening the wingbolt (as shown in Figure 11) and sliding the assembly in or out to accommodate length requirements. Once adjustments have been made, you must retighten the wingbolt securely prior to use.

STEP 4: Locate (2) looped ratchet straps (Q) (refer to Figure 1). Note: (1) looped ratchet strap (Q) consists of: 1-looped ratchet mechanism end and 1-6’ strap w/sewn loop at one end. Attach one set of the looped ratchet strap (Q) pre-sewn looped end(s) onto each side (left and right) of the UPPER v-bar (M) (located behind seat platform). Next, attach the second set of looped ratchet strap (Q) pre-sewn looped end(s) onto each side (left and right) of the LOWER v-bar (M) (located behind foot platform) as shown in Figure 12. For installation and threading instructions refer to Figure 14.

STEP 5: Locate two (2) 16’ stabilizing ropes (R) (refer to Figure 13). Install the two (2) 16’ stabilizing ropes (R) onto the lower v-bar (located behind foot platform (I)), tying one (1) 16’ stabilizer rope onto each side of the v-bar as shown in Figure 12. Note: Attach by tying a secure knot. Allow both sets of looped ratchet straps (Q) (1-set secured to each of the v-bar’s) and the two (2) 16’ stabilizing ropes (R) to hang freely downward.

STEP 6: With three (3) or more adults, carefully raise the assembled ladder stand up until the ladder stand rests into the center of both v-bars and the seat platform (G) and foot platform (I) are level. Note: DO NOT stand in the direct path or underneath any treestand at any time. If need to be, drive a stake into the ground at first ladder rung to prevent the ladder stand from sliding towards the tree while raising and lowering of the ladder stand.

Note: With two (2) adults raising the treestand into place, have one (1) adult pulling on the two (2) 16’ stabilizing ropes (R) from behind the tree. By doing so, this helps guide the treestand safely into place.

STEP 7: To level the seat platform (G) and foot platform (I), move the ladder stand in or out until the platforms are level. Once level, stand on the bottom ladder rung until it is firmly seated into the ground.

Note: When raising/lowering your treestand, DO NOT flex/stress the ladder sections by arching or bending them as too much stress or flex in the ladder sections will cause permanent damage in the ladder sections.

STEP 8: With the treestand level, and both v-bars are flush against the tree trunk, adjust the adjustable support bar assemblies (T) length until the “V” end is firmly against the tree trunk. Tighten the wingnut bolt securely.

Note: The ladder sections should be slightly arched away from the tree.

STEP 9: Locate the (1) 8’ stabilizing rope (S) (refer to Figure 1). Secure the adjustable support bar assembly (T) “V” end to the tree using the 8’ stabilizing rope (S) as shown in Figure 14.

Note: NEVER adjust the adjustable support bar assembly (T) once your stand is in position and your platforms are level.

STEP 10: Locate the two (2) 16’ stabilizing ropes (R) hanging down from the LOWER v-bar. Pull down on the ropes from behind the tree and criss-cross the ropes behind the tree to form a “X” with the ropes. Keeping tension on the ropes, walk around to the front of the tree and tie each rope off to each side of the ladder section rung (to rung closet to ground level). These ropes will hold the top section to the tree until the platform section is secured to the tree with the (2) looped ratchet straps (Q) attached to each of the v-bars. NEVER REMOVE the stabilizing ropes from the tree nor attempt to climb the ladder unless the 8’/16’ stabilizing ropes (S&R) and adjustable support bar assembly (T) is firmly attached to the tree.

PLEASE READ THIS MANUAL IN ITS ENTIRETY PRIOR TO USING THIS PRODUCT!

PLEASE READ THIS MANUAL IN ITS ENTIRETY PRIOR TO USING THIS PRODUCT!
PLEASE READ THIS MANUAL IN ITS ENTIRETY PRIOR TO USING THIS PRODUCT!

Note: Review, understand, and follow all looped ratchet strap (Q) instructions for proper threading (refer to Figure 13) prior to leaving the ground to secure the looped ratchet straps (Q). Check to insure ladder sections are secured together with (4) quick pins (P) and (4) safety sleeve(s) (V) (refer to Figure 10 for safety assembly and the quick pins are closed properly. Make certain the ground is firm and level under the bottom ladder section, and all 8’/16’ stabilizing ropes (S/R) and the adjustable support bar assembly (T) is secured firmly against the tree.

STEP 11: Next, being extremely careful, slowly climb up while leaning forward with three (3) points-of-contact as you climb. Upon arrival to the foot/seat platform area and while standing on the ladder portion of your ladder treestand, attach your full-body fall arrest tether to the tree prior to securing the looped ratchet straps (Q). Next, wrap the (UPPER) looped ratchet strap (Q) (located behind the seat platform (F)) around the tree trunk and thread/secure as shown in Figure 13. Next, wrap the (LOWER) looped ratchet strap (Q) (located behind the foot platform (I)) around the tree trunk and thread/secure as shown in Figure 13. Tie off all loose ends. Always check ALL straps before each use for damage or wear. NEVER stand and/or kneel on the foot or seat platforms while securing or removing the looped ratchet straps (Q) to or from the tree.

WARNING! You MUST install your Big Dog Treestand level. Any installation other than level, will result in a dangerous condition for the user. If you find your treestand canted, unlevel or in any condition other than level, you must remove it and find an alternative installation site that affords level installation. Failure to follow these instructions will result in serious injury or death!

WARNING! DO NOT use this, or any other Big Dog Treestands product(s) to climb utility poles, telephone poles, structural columns or any other man-made structures. Never use this, or any other Big Dog Treestands product(s) around power generation (e.g., transformers, generators, substations, etc.) and/or power transmission equipment. Failure to follow these instructions will result in serious injury or death!

**REMOVING YOUR BIG BUD-17 TREESTAND**

WARNING! STOP NOW!!!! Make sure that you are wearing your Big Dog Treestands full-body fall arrest harness! Failure to follow these instructions may result in serious injury or death!

WARNING! DO NOT remove the adjustable support bar or 8’/16’ stabilizing ropes until you are ready to lean this product away from the tree while you are safely on the ground. Failure to follow these instructions will result in serious injury or death!

WARNING! DO NOT remove the adjustable support bar assembly or 8’/16’ stabilizing ropes unless you are doing so from the ground. DO NOT remove these with any person standing on any portion of the ladder or and/or ladderstand assembly. Failure to follow these instructions may result in serious injury or death!

WARNING! Prior to attempting to use this or any other Big Dog Treestands product(s) you must take a moment and become familiar with it’s setup and installation at ground level. You must practice installing, setting-up and using this product(s) at ground-level prior to attempting to use it at heights above ground-level. Once you have become thoroughly knowledgeable and comfortable with this Big Dog Treestands product(s) setup, installation and use at ground-level, you’re now ready to use it at heights above ground-level. Failure to follow these instructions may result in serious injury or death!

**STORAGE AND CARE**

It is recommended that you store your treestand out of direct sunlight and out of any other harsh environmental condition(s) that may adversely affect its performance. Always apply a protective sealant or oil all hardware to prevent corrosion. Replace all straps and ropes annually. Store all seat cushions and pads in a cool dry place.
